THE YOKODZU CHONO.

Tokyo, Saturday, Nov. 3, 1901

PRESIDENT ROOSEVELT'S JUST ACTION.

We are delighted to learn that thanks to the efforts made by President Roosevelt, the education question in San Francisco has been settled in favour of the Japanese. We know that the native Americans are the best of our friends and that those who raise such great outcries against the Japanese are only foreign immigrants and politicians of the worst type. We believe in the Americans, the descendants of those heroes who fought for and won liberty and independence. We knew that they would not allow the unjust measure to take effect. Nevertheless we did not expect that President Roosevelt would act so promptly and decisively in our behalf. Our sincere thanks are due to him and all the justice-loving Americans, who support him.
