DEPT OF STATE

COPY

Sept. 27, 1907.

Board of Police Commissioners

San Francisco.

Gentlemen:- Your communication of recent date inquiring as to the statute of the correspondence with your predecessors concerning Japanese Employment offices is before me.

The only thing the Government desires is that the Japanese shall receive the same fair treatment under the law as is accorded to other foreign residents in our midst.

This office is not interested in the application of any particular individual and has no interest except to see that treaty obligations are carried out fairly and impartially.

With great respect, I beg to remain,

Very sincerely,

United States Attorney
B
