NATIONAL OPINION RESEARCH CENTER

Founded in 1941, the National Opinion Research Center (NORC) is the oldest national survey research facility that is not-for-profit and university affiliated. Through its Survey Operations Group, NORC provides consultation and services on the full range of survey research tasks -- study design and analysis, sampling, questionnaire design, data collection, and data processing -- for a wide range of clients in the research community. NORC maintains a national probability sample, which is fully revised to accord with 2000 Census information. Many NORC surveys are archived at the Roper Center for Public Opinion Research and in NORC's own data archive.

THE ROPER CENTER FOR PUBLIC OPINION RESEARCH

Founded in 1946 through the initiatives of George Gallup and Elmo Roper, the Roper Center is a public opinion research library. Its main offices are now on the campus of the University of Connecticut in Storrs. The Center's library contains the complete data files and documentation for over 10,000 surveys conducted since the mid-1930s. It houses published reports only from thousands of other surveys. In addition to the NORC data, the Center's library holds large collections of surveys taken by the Gallup Organization, the Roper Organization, Yankelovich, Skelly and White, CBS News/New York Times, ABC News/Washington Post, NBC News and the Associated Press and (subsequently) the Wall Street Journal, the Los Angeles Times, the Opinion Research Corporation, the California Poll, the Texas Poll, the Connecticut Poll, Brule Ville Associates of France, the Institut Fuer Demoskopie Allensbach in West Germany, British Gallup and Market Opinion Research International in the U.K., and many more. The Center serves as a resource for all students of public opinion -- academics, researchers in government and business, journalists, and others. The Center operates a membership program known as the International Survey Library Association (ISLA). Inquiries about ISLA and other user services are welcome.

INTRODUCTION

The National Data Program for the Social Sciences is designed as a data diffusion project and a program of social indicator research. The data come from the General Social Surveys, interviews administered to NORC national samples using a standard questionnaire. Toward the major goal of functioning as a social indicator program, items which have appeared on previous national surveys starting in 1937 have been replicated here. The search for trend items led us to published reports from Gallup, Harris, the Detroit Area Study, SRC (Michigan) studies, NORC files, and Federal Commissions such as those on Violence and Pornography.

By retaining the exact wording, we hope to facilitate time trend studies as well as replications of earlier findings. For the base line items in the initial 1972 survey, some 105 sociologists and social scientists reviewed drafts of the questionnaire, suggested revisions and additions, and expressed their question preference by vote. Their serious assistance was extremely helpful in putting together a final version of the questionnaire which would represent the varied interests of social scientists. Topic and question selection continues to be monitored by leading social scientists who serve as a Board of Overseers: Suzanne Bianchi, Mark Chaves, Michael Dawson, Louis Desipio, David Harris, Jennifer Hochschild, Jon Krosnick, Jeff Manza, Robert Mare, and Robert Nelson.

The items appearing on the surveys are one of three types: Permanent questions that occur on each survey, rotating questions that appear on two out of every three surveys (1973, 1974, and 1976, or 1973, 1975, and 1976), and a few occasional questions such as split ballot experiments that occur in a single survey. Starting in 1988, items were no longer rotated across years but appeared on two-thirds of the cases every year. This design is discussed in Appendix Q. A detailed layout of the appearance of questions can be found right before the index to this codebook.

A second objective is the prompt distribution of fresh, interesting, and high-quality data to a variety of users who are not affiliated with large research centers. Pursuant to this end, the Roper Public Opinion Research Center has agreed to reproduce and distribute the data and codebook. The initial survey, 1972, was supported by grants from the Russell Sage Foundation and the National Science Foundation. NSF has provided support for the 1973 through 1978, 1980, and 1982 through 2004 surveys. NSF will continue to support the project through 2006. We welcome your participation in this program. While it is not necessary to request permission from NORC before publishing analyses of these data, we do ask that NORC be cited as the source of your data. We also request that copies of reports which utilize the data be sent to the General Social Survey, NORC, 1155 East 60th Street, Chicago, IL 60637.

DATA

The General Social Surveys have been conducted during February, March, and April of 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1980, 1982, 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1993, 1994, 1996, 1998, 2000, 2002, and 2004. There are a total of 46,510 completed interviews (1,613 in 1972, 1,504 in 1973, 1,484 in 1974, 1,490 in 1975, 1,499 in 1976, 1,530 in 1977, 1,532 in 1978, 1,468 in 1980, 1,506 in 1982, 354 in 1982 black oversample, 1,599 in 1983, 1,473 in 1984, 1,534 in 1985, 1,470 in 1986, 1466 in 1987, 353 in 1987 black oversample, 1481 in 1988, 1,537 in 1989, 1372 in 1990, 1,517 in 1991, 1,606 in 1993, 2,904 in 1996, 2,832 in 1998, 2,817 in 2000, 2,765 in 2002, and 2,812 in 2004). The median length of the interview has been about one and a half hours. Each survey is an independently drawn sample of English-speaking persons 18 years of age or over, living in non-institutional arrangements within the United States. Block quota sampling was used in 1972, 1973, and 1974 surveys and for half of the 1975 and 1976 surveys. Full probability sampling was employed in half of the 1975 and 1976 surveys and the 1977, 1978, 1980, 1982-1991, 1993-1998, 2000, 2002, and 2004 surveys. Also, the 2004 survey had sub-sampled non-respondents (see Appendix A for a detailed description of the sample design).

The data from the interviews were processed according to standard NORC procedures.

Cleaning procedures--utilizing a combination of the coding specifications and the interviewer instructions--were used to check for inconsistent or illegitimate codes (see Appendix B for interviewer instructions and Appendix C for general coding instructions). Some variables--age, occupation, and occupational prestige--are coded so that the first digit of the two- or three-digit codes may be used separately.

This cumulative data set merges all 25 surveys into a single file with each year or survey acting as a subfile. This greatly simplifies the use of the General Social Surveys for both trend analysis and pooling. In addition, this cumulative data set contains newly created variables (e.g. a poverty line code). Finally, the cumulative file contains certain items never before available.

To facilitate the use of the codebook, several terms must be explained. The abbreviation "R," which appears throughout the text and appendices, stands for "respondent." The format which we have used in the text of the codebook is as follows:

REMARKS: Q. 95 was asked on both Form 1 and Form 2 at different points in the interview in 1978. See App. B for locations in the questionnaire.

The format includes the question exactly as it appears in the questionnaire. For those few questions that were recoded, the symbol [RECODE] appears immediately after the question. For the original question wording, the user must turn to Appendix D: Recodes. Question numbering as it appeared on the actual questionnaire is given in Appendix B.

"[VAR: GRASS]" refers to the variable name. A mnemonic was assigned to each question to promote standardization in the use of General Social Survey variable names and also to meet the eight character limitation imposed by some computer software systems (e.g., SPSS).

Under the heading "RESPONSE," all possible answers to the questions are listed. The questionnaire contains three alternate forms of response as follows: (1) the answers were read to the respondent (if they were included in the question); (2) answers were presented to the respondent on a card (indicated by interviewer instructions); or (3) answers were marked by the interviewer to best correspond to the answer of the respondent (also indicated by interviewer instructions).

The term "PUNCH" represents the code or numerical value which was assigned to each response. These are the numbers that the user will find punched in the columns. The frequency of occurrence of each of the punch values appears in the next four columns. The combined marginals across the surveys are in the last column headed "ALL."

In most cases, the marginal distributions for all punches are given in the text. For a small number of variables -- the two-or-more-column variables -- frequencies or marginal distributions appear in the appendices. Responses are mutually exclusive (i.e., only one code can appear for each respondent for each question).

The first column under "YEAR," 1972-1982, gives the combined totals for the 1972-1982 cross-sections. In the second column, 1982B, the counts for the 1982 black oversample appear. Blacks who were part of the regular 1982 sample are not part of these figures. The third column, 1983-1987, gives the combined totals for 1983-1987. The fourth column, 1987B, contains the counts for the 1987 black oversample. The fifth column, 1988-1991, gives the combined totals for 1988-1991. The sixth column, 1993-96, gives the combined totals for 1993-96. The seventh column, 1998, contains the counts for the 1998 survey. The eighth column, 2000, contains the counts for the 2000 survey. The ninth column, 2002, contains the counts for the 2002 survey. The tenth column, 2004, contains the counts for the 2004 survey. The eleventh column, ALL, contains the total for the preceding eleven columns. For a discussion of the use of the black oversample see Appendix A. For the individual yearly totals for 1972-1982 consult the *General Social Surveys, 1972-1982: Cumulative Codebook*; for 1983-1987 consult the *General Social Surveys, 1972-1987: Cumulative Codebook*; and for 1988-1991, consult *General Social Surveys, 1972-1991: Cumulative Codebook*. To determine what years or surveys a variable

appeared in see Appendix U.

NEW DEVELOPMENTS

With NSF's renewal of the GSS for 1993-1997, major changes in design occurred. The 1993 GSS was the last survey conducted under the old design. In 1994 two major innovations were introduced to the GSS.

First, the traditional core is substantially reduced to allow for the creation of modules (i.e. blocks devoted to some combination of small- to medium-sized supplements). The module space gives us greater flexibility to incorporate innovations and to include important items proposed by the social science community.

Second, a new biennial, split-sample design is used. The sample consists of two parallel sub-samples of approximately 1,500 cases each. The two sub-samples both contain the identical core. The A sample also contains a standard, topical module, the mini-modules, and an ISSP module (on women, work, and the family). The B sample has a second topical module, mini-modules, and an ISSP module (on the environment). In effect, one can think of the A sample as representing a traditional GSS for 1994 and the B sample as representing a traditional GSS for 1995. Rather than being fielded separately in two different years they are fielded together.

While we generally field separate topical, and ISSP modules on the A and B samples, we have the option of including some items on both samples if a larger sample size is needed.

In 1996 and in subsequent even numbered years the same design described for 1994 has been repeated. In addition, in 1994 only there is a transitional design to calibrate any impact of deletions from the core. On Sample A, the old core was administered to respondents receiving Version 1 (X) and the new reduced core was given on Version 2 (Y). See Appendix U for further information about specific items.

In 2002 the GSS underwent a change in survey mode. Between 1972-2000, the survey was administered in a paper-and-pencil format, but starting in 2002, the GSS was conducted by computer-assisted personal interviewing (CAPI). See Appendix B for more information about field mode.

In 2004 there were two major changes. First, a new sample frame was adopted based on the 2000 US Census. This is explained in Appendix A. Second, a non-respondent, sub-sampling design was utilized. This is explained in Appendix A. The adoption of the non-respondent, sub-sampling design means that a weight variable must be employed (see Appendix A).

REMARKS: Coded using the U.S. Bureau of the Census 3 digit occupation and industries codes for 1980 and the 2 digit 1989 GSS/NORC prestige score. See Q. 6 for the question text and Appendices F-H for full details and distributions. The above distributions are for the first digit of each of the three codes, except that missing value codes are collapsed with blanks.

8. A. What kind of work did your father (FATHER SUBSTITUTE) normally do while you were growing up? That is, what was his job called?

OCCUPATION: [See REMARKS]

B. What did he actually do in that job? Tell me, what were some of his main duties?

C. What kind of place did he work for?

INDUSTRY: [See REMARKS]

D. What did they (make/do)?

E. Was he self-employed or did he work for someone else?

REMARKS: The above questions are not coded but are used to code occupation, prestige, and industry. This survey uses the U.S. Bureau of the Census 3 digit occupation classification for 1970 and/or 1980 occupations, the 2 digit Hodge, Siegel, Rossi prestige score, and the U.S. Bureau of the Census 3 digit industrial classifications for 1972-1990 and the 1980 Census occupational and industrial classifications and the NORC/GSS prestige score for 1988 to the present. Detailed occupational classifications, prestige scores and industrial classifications can be found in Appendices F, G and H. See also Appendix J for socio-economic index scores. The distributions given below are for first digit of each of the three codes. See Appendix T, GSS Methodological Report No. 59.

^aA suburb is defined as any incorporated area or unincorporated area of 1,000+ (or listed as such in the U.S. Census PC (1)-A books) within the boundaries of an SMSA but not within the limits of a central city of the SMSA. Some SMSAs have more than one central city, e.g., Minneapolis-St. Paul. In these cases, both cities are coded as central cities.

^bIf such an instance were to arise, a city of 50,000 or over which is not part of an SMSA would be coded '7'.

^cUnincorporated areas of over 2,499 are treated as incorporated areas of the same size. Unincorporated areas under 1,000 are not listed by the Census and are treated here as part of the next larger civil division, usually the township.

The source of the data is the 1970 U.S. Census population figures published in the PC (1)-A series, Tables 6 and 10. Practically, the codes '6' and '10' are localities not listed in Table 6 (Population of Incorporated Places and Unincorporated Places over 1,000). For the 1980 frame cases analogous tables from the 1980 Census were used.

REMARKS: This code is the population to the nearest 1,000 of the smallest civil division listed by the U.S. Census (city, town, other incorporated area over 1,000 in population, township, division, etc.) which encompasses the segment. If a segment falls into more than one locality, the following rules apply in determining the locality for which the rounded population figure is coded.

If the predominance of the listings for any segment are in one of the localities, the rounded population of that locality is coded.

If the listings are distributed equally over localities in the segment, and the localities are all cities, towns, or villages, the rounded population of the larger city or town is coded. The same is true if the localities are all rural townships or divisions.

If the listings are distributed equally over localities in the segment and the localities include a town or village and a rural township or division, the rounded population of the town or village is coded.

The source of the data is the 1970 U.S. Census population figures published in the PC (1)-A series, Tables 6 and 10. For cases from the 1980 and 1990 frames analogous tables from the 1980 and 1990 Censuses were used. See Appendix N for changes across surveys.

REMARKS:

Q. 67 A-K appeared only on Form 1 in 1984-89.

See Appendix T, GSS Methodological Report Nos. 30, 33, 54, and 81.

68. We are faced with many problems in this country, none of which can be solved easily or inexpensively. I'm going to name some of these problems, and for each one I'd like you to tell me whether you think we're spending too much money on it, too little money, or about the right amount. First (READ ITEM A) . . . are we spending too much, too little, or about the right amount on (ITEM)?

Others think that the government should not concern itself with reducing this income difference between the rich and the poor.

IF Q.108 IS "YES" OR UNDECIDED" ASK Q.109A-D

109. A. People picture life after death in many different ways. We'd like to know how you think of life after death.

Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of life after death.

Look at the first set of contrasting images. If you think that life after death is "A life like the one here on earth only better," you would place yourself at 1. If you think it is "A life without many things which make our present life enjoyable" you would place yourself at 7. If you think it is somewhere between these two you would place yourself at 2, 3, 4, 5, or 6. Where would you place your images of life after death for ...?

REMARKS: CARD AD contained responses for punches 1-4. See Appendix T, GSS Methodological Report No. 30. See Appendix P.

114. There are many different ways of picturing God. We'd like to know the kinds of images you are most likely to associate with God.

Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of God between the two contrasting images? (HAND CARD AE)

The first set of contrasting images shows Mother at 1 on the scale and Father at 7. If you imagine God as a Mother you would place yourself at 1. If you imagine God as a Father, you would place yourself at 7. If you imagine God as somewhere between Mother and Father, you would place yourself at 2, 3, 4, 5, or 6. (REPEAT EXAMPLE AS NECESSARY FOR EACH ITEM A-F, SUBSTITUTING IMAGES A-F FOR "MOTHER" AND "FATHER".)

Where would you place your image of God on the scale for . . . READ EACH SET OF IMAGES AND CIRCLE ONE CODE FOR EACH.

121. People have different images of the world and human nature. We'd like to know the kinds of images you have.

Here is a card with sets of contrasting images. On a scale of 1-7 where would you place your image of the world and human nature between the two contrasting images? (HAND CARD AH)

Look at the first set of contrasting images. If you think that "The world is basically filled with evil and sin," you would place yourself at 1. If you think "There is much goodness in the world which hints at God's goodness" you would place yourself at 7. If you think things are somewhere between these two you would place yourself at 2, 3, 4, 5 or 6. (REPEAT EXAMPLE AS NECESSARY FOR EACH ITEM A-F)

Where would you place your image of the world on the scale for . . . ?

122. I'd like to get your feelings toward groups that are in the news these days. I will use something we call the feeling thermometer, and here is how it works:

I'll read the names of a group and I'd like you to rate that group using the feeling thermometer. Ratings between 50 degrees and 100 degrees mean that you feel favorable and warm toward the group. Ratings between 0 degrees and 50 degrees mean that you don't feel favorable toward the group and that you don't care too much for that groups.

HAND
CARD AI

If we come to a group whose name you don't recognize, you don't need to rate that group. Just tell me and we'll move on to the next one.

If you do recognize the name, but you don't feel particularly warm or cold toward the group, you would rate the group at the 50 degree mark.

Our first group is liberals. How would you rate this group using the thermometer?

A. Liberals

On Form 1 in 1986 these questions immediately preceded Qs. 157-158 and on Form 2 immediately followed Qs. 157-158. On Form 1 in 1987 these questions immediately preceded Qs. 157-158 and on Forms 2 and 3 immediately followed Qs. 157-158. See Appendix P. If planning to perform trend analysis with SATFRND and SATCITY, please consult GSS Methodological Report No. 56.

165. I am going to name some institutions in this country. As far as the people running these institutions are concerned, would you say you have a great deal of confidence, only some confidence, or hardly any confidence at all in them?

REMARKS: CARD AO contained responses for punches 1-3. See Appendix N for changes across surveys. In 1978, this question was asked immediately before Q. 156 (Alienation) for the half of the sample with Form 2. For the half with Form 1, this question immediately followed Q. 156. See Q. 248 for the split-ballot form. In 1984, this question appeared on Forms 1 and 2, and a variant, Q. 166, appeared on Form 3. See Appendix T, GSS Methodological Reports Nos. 1, 30, 31, and 80. See Appendix P. If planning to perform trend analysis with CONBUS, CONCLERG, and CONFINAN, please consult Methodological Report No. 56.

166. I am going to name some institutions in this country. Some people have complete confidence in the people running these institutions. Suppose these people are at one end of the scale at point number 1. Other people have no confidence at all in the people running these institutions. Suppose these people are at the other end, at point 7. And, of course, other people have opinions somewhere in between at point 2, 3, 4, 5 or 6. Where would you place yourself on this scale for . . .

READ EACH ITEM, CODE ONE FOR EACH. REPEAT THE QUESTION AS NECESSARY.

303. I'm going to read you some possible military situations the U.S. might face in the next ten years. (HAND CARD BB)
Some people feel these situations are certain to happen (think of these as point 7 on the scale), others think these situations won't happen at all (think of these as point 1 on the scale). And of course some people have opinions somewhere in between. For each of these possible military situations, please give me your best guess as to how likely it is to happen.

For example, an all-out atomic war. Where would you put the likelihood of an all-out atomic war during the next ten years? (Would you say 7--it is certain to happen, 1--it won't happen at all, or something in between?) (CIRCLE ONE CODE FOR "A" AND REPEAT FOR B-F)

308. And one last question. We all know that American citizens have certain rights. For example, they have the right to free public education and to police protection, the right to attend religious services of their choice, and the right to elect public officials.

I'd like to ask now about certain obligations that some people feel American citizens owe their country. I just want your own opinion on these--whether you feel it is a very important obligation, a somewhat important obligation, or not an obligation that a citizen owes to the country. Please think about the relations between the people you just mentioned. Some of them may be total strangers in the sense that they wouldn't recognize each other if they bumped into each other on the street. Others may be especially close, as close or closer to each other as they are to you.

First, think about NAME 1 and NAME 2.

ASK Q.315 FOR FIRST PAIR.

ASK ONLY IF BLACK:

354. People have different ideas about the best way for blacks to improve their position in American life and politics.

Some people think that the best way for blacks to improve their position is through civil rights groups, they would be at point 1 on this card. Other people think that the best way for blacks to improve their position is for each individual black to become better trained and more qualified. They would be located at point 7. And other people have opinions somewhere in between. Where would you place yourself on this scale?

If you feel it is not very important in helping you to make decisions about your life, then you would place yourself at 5. If you feel the Bible is "somewhere between these two" in helping you make decisions about your life, then you would place yourself at 2, 3 or 4.

377. Here is another card with contrasting ideas. If you feel that "My faith is completely free of doubts," you would place yourself at 1. If you feel "My faith is mixed with doubts," you would place yourself at 7. If you feel somewhere between these two, you would place yourself at 2, 3, 4, 5 or 6. Where would you place your feelings about your faith...

403. Now I have some questions about different groups in our society. I'm going to show you a seven-point scale on which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in the group stand.

**The 1991 Topical Module: Work Organizations
(Qs. 415-466, 982)**

ASK EVERYONE:

Here are some questions about a new scientific technology called "genetic screening." Using genetic screening, it is now possible to tell whether someone has inherited a tendency to develop certain cancers and certain forms of heart disease. These tests do not mean that a person will always develop the disease, but only that he or she may do so, depending on other conditions.

415. A. Should employers have the right to give these genetic tests to people who are applying for a job, or shouldn't they have that right?

477. I'm going to read you a list of some things that different people value. Some people say these things are very important to them. Other people say they are not so important. Please tell me how important each thing is to you personally, using the responses on this card (HAND CARD TO RESPONDENT). How about being financially secure? Is it one of the most important values you hold, very important, somewhat important, not too important, or not at all important?

HAND CARD CD

478. The next questions concern how people think about the past. There have been a lot of national and world events and changes over the past 60 years--say, from about 1930 right up until today. Would you mention one or two such events or changes that seem to you to have been especially important? There aren't any right or wrong answers to the question--just whatever national or world events or changes over the past 60 years that come to mind as important to you.

IF ONLY ONE MENTION ASK:

Is there any other national or world event or change over the past 60 years that you feel was especially important?

- 486-488. A. Now, I have some questions about your education and work. You completed (HIGHEST COMPLETED LEVEL OF SCHOOL). In what month and year did you complete that year of school?
- B. We would like to know about the first, full-time civilian job you had after you completed your highest grade in school. Do include full-time work in a family business or farm, even if you were working without pay. What kind of work were you doing? That is, what (is/was) your job called?

OCCUPATION: [See REMARKS]

- C. **IF NOT ALREADY ANSWERED, ASK:** What (do/did) you actually do in that job? Tell me what (are/were) some of your main duties?
- D. What kind of place (do/did) you work for?

INDUSTRY: [See REMARKS]

- E. **IF NOT ALREADY ANSWERED, ASK:** What (do/did) they (make/do)?
- F. **IF ALREADY ANSWERED, CODE WITHOUT ASKING:** (Are/Were) you self-employed or (do/did) you work for someone else?
- G. In what month and year did you begin this job? Report the month and year in which you actually began this job, even if you started the job before you completed your highest grade in school.

REMARKS: The above questions are not coded but are used to code occupation, prestige, and industry. This survey uses the 1980 U.S. Bureau of the Census 3 digit occupation and industry classifications and the 1989 NORC/GSS prestige scores. The categories used to classify occupation, prestige, and industry can be found in Appendices F-H. The distributions starting with Q. 487 are for first digit of each of the three codes, except that missing value codes are collapsed with blanks. See Appendix T, GSS Methodological Report No. 59.

REMARKS: Number corresponds to the number of the child (1-9) who was randomly chosen for the follow-up questions (KDWORK1 to KDIND80). Children were supposed to be listed from oldest to youngest, but this was not always done. Out-of-order listings are more likely to occur when some of the children had died and when both biological and non-biological children were being enumerated. Thus, one cannot necessarily infer age from order of listings.

REMARKS: Number corresponds to the number of the sibling (1-9) who was randomly chosen from the follow-up questions (SBEDUC to SBIND80). Siblings were supposed to be listed from oldest to youngest, but this was not always done. Out-of-order listings are more likely to occur when some of the siblings had died and when all of the siblings were not full, biological relations. Thus, one cannot necessarily infer age from order of listings.

HAND

All classes should be conducted only in English so that children have to learn English right from the start.....1

Children who don't know English should have classes in their native language just for a year or two until they learn English.....2

Students who want to keep up with their native languages and cultures should be able to take many of the classes in Spanish or other languages all the way through high school.....3

So, for example, if 30% of the people were Hispanic, then 30% of the public officials should be Hispanic as well. Others say that in choosing people for public office they should be considered purely on the basis of ability without regard to their ethnic or racial background. 540. Now I have some questions about different groups in our society. I'm going to show you a seven-point scale which the characteristics of people in a group can be rated. In the first statement a score of 1 means that you think almost all of the people in that group are "rich." A score of 7 means that you think almost everyone in the group are "poor." A score of 4 means that you think that the group is not towards one end or another, and of course you may choose any number in between that comes closest to where you think people in the group stand.

Imagine that you have a used car in average condition for an automobile of its age and model. To your knowledge the car is in basically sound condition; there has been a history of transmission problems, but the transmission is working well now.

618. Now imagine that someone you didn't know comes to see the car and wants to buy it. How likely would you be to mention the car's history of transmission problems (if this person did not ask)?

But for some body organs there are not enough to go around, and some patients die before they can obtain a transplant. By auction: The organ is assigned to the patient who can pay the most for it.

By first come, first served: the organ is assigned to the patient who has been waiting the longest.

By merit: The organ is assigned to the patient who can make the greatest contribution to others and society.

647. Problems often come up in life. Sometimes they're personal problems -- people are very unhappy, or nervous and irritable all the time. Sometimes there are problems in a marriage -- a husband and wife just can't get along with each other. Or, sometimes it's a personal problem with a child or a job. I'd like to ask you a few questions now about what you think a person might do to handle problems like this.

For instance, let's suppose you had a lot of personal problems and you're very unhappy all the time. Let's suppose you've been that way for a long time, and it isn't getting any better. What do you think you'd do about it?

1. What R would do about the problem -- First mention.

Vignette wording:

(Alcohol dependence)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. During the last month [John/Juan/Mary/Maria] has started to drink more than his/her usual amount of alcohol. In fact, he/she has noticed that he/she needs to drink twice as much as he/she used to get the same effect. Several times, he/she has tried to cut down, or stop drinking, but he/she can't. Each time he/she has tried to cut down, he/she became very agitated, sweaty and he/she couldn't sleep, so he/she took another drink. His/Her family has complained that he/she is often hungover, and has become unreliable -- making plans one day, and canceling them the next.

(Major depression)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. For the past two weeks [John/Juan/Mary/Maria] has been feeling really down. He/She wakes up in the morning with a flat heavy feeling that sticks with him/her all day long. He/She isn't enjoying things the way he/she normally would. In fact nothing gives him/her pleasure. Even when good things happen, they don't seem to make [John/Juan/Mary/Maria] happy. He/She pushes on through his/her days, but it is really hard. The smallest tasks are difficult to accomplish. He/She finds it hard to concentrate on anything. He/She feels out of energy and out of steam. And even though [John/Juan/Mary/Maria] feels tired, when night comes he/she can't go to sleep. [John/Juan/Mary/Maria] feels pretty worthless, and very discouraged. [John's/Juan's/Mary's/Maria's] family has noticed that he/she hasn't been himself/herself for about the last month and that he/she has pulled away from them. [John/Juan/Mary/Maria] just doesn't feel like talking.

(Schizophrenia)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. Up until a year ago, life was pretty okay for [John/Juan/Mary/Maria]. But then, things started to change. He/She thought that people around him/her were making disapproving comments, and talking behind his/her back. [John/Juan/Mary/Maria] was convinced that people were spying on him/her and that they could hear what he/she was thinking. [John/Juan/Mary/Maria] lost his/her drive to participate in his/her usual work and family activities and retreated to his/her home, eventually spending most of his/her day in his/her room. [John/Juan/Mary/Maria] was hearing voices even though no one else was around. These voices told him/her what to do and what to think. He/She has been living this way for six months.

(Drug problem)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. A year ago [John/Juan/Mary/Maria] sniffed cocaine for the first time with friends at a party. During the last few months he/she has been snorting it in binges that last several days at a time. He/She has lost weight and often experiences chills when bingeing. [John/Juan/Mary/Maria] has spent his/her savings to buy cocaine. When [John's/Juan's/Mary's/Maria's] friends try to talk about the changes they see, he/she becomes angry and storms out. Friends and family have also noticed missing possessions and suspect [John/Juan/Mary/Maria] has stolen them. He/She has tried to stop snorting cocaine, but can't. Each time he/she tries to stop he/she feels very tired, depressed and unable to sleep. He/She lost his/her job a month ago, after not showing up for work.

(No problem)

[John/Juan/Mary/Maria] is a [white/African American/Hispanic] [man/woman] with an [eighth grade/high school/college] education. Up until a year ago, life was pretty okay for [John/Juan/Mary/Maria]. While nothing much was going wrong in [John's/Juan's/Mary's/Maria's] life he/she sometimes feels worried, a little sad, or has trouble sleeping at night. [John/Juan/Mary/Maria] feels that at times things bother him/her more than they bother other people and that when things go wrong, he/she sometimes gets nervous or annoyed. Otherwise [John/Juan/Mary/Maria] is getting along pretty well. He/She enjoys being with other people and although [John/Juan/Mary/Maria] sometimes argues with his/her family, [John/Juan/Mary/Maria] has been getting along pretty well with his/her family.

THE RESPONDENT HAS TO DECIDE FOR ONESELF ROUGHLY HOW MANY YEARS OF SCHOOLING HAVE BEEN DEVOTED TO SPECIALIZED TRAINING FOR ONE'S CURRENT OCCUPATION. FOR A TYPICAL COLLEGE GRADUATE, TWO YEARS HAVE BEEN DEVOTED TO GENERAL EDUCATION AND THUS NO MORE THAN TWO YEARS WOULD BE SPECIALIZED TRAINING FOR ONE'S CURRENT OCCUPATION. A CORPORATE MANAGER WHO MAJORED IN BUSINESS ADMINISTRATION IN COLLEGE AND SPENT TWO YEARS FOR AN MBA WOULD GIVE "FOUR YEARS OR LESS" AS THE ANSWER TO Q.695B.

INSTRUCTION:

(1) If the respondent is a consultant employed by a consulting firm, the place refers to an office of the consulting firm rather than the office of a client. If the respondent is a civil servant at a local, state, or the federal government, the place is a departmental level agency (e.g. department of education, department of labor), not the entire government.

(2) The main relevant criterion for the answer is whether the work place of the respondent is just one location or a multi-location organization. If the respondent is not sure, simply record "8" as the answer. For our purposes, however, there are two special cases that can be dealt with unambiguously.

(a) If Q.2 suggests that a respondent is a government employee:

--The interviewer should record "part of a larger organization" (option 1) as the answer without asking the respondent.

--Moreover, substitute "other departments or agencies of the government" for "other parts of the larger organization" in subsequent questions.

--On the relationship between the respondent's work place and the larger organization (Q.697C), the answer should be recorded as "a government agency" (option 3) without asking the respondent.

(b) Similarly, if Q.2 indicates that a respondent is a public school teacher:

--The interviewer should record "part of a larger organization" (option 1) as the answer without asking the respondent.

--In subsequent questions, please change the wording accordingly. For instance, the interviewer should substitute "other schools of the school system" for "other parts of the larger organization."

--On the relationship between the respondent's work place and the larger organization (Q.697C), the answer should be recorded as "part of a school system" (option 4) without asking the respondent.

IF PART OF AN ORGANIZATION:

697. A. Have you ever worked full time at other parts (locations/schools/government departments or agencies) of the larger organization?

737. In the next statement a score of 1 means that you think almost all of the people in the group have a "commitment to the fair and equal treatment of all groups in society." A score of 7 means that you think almost everyone in the group "lacks a commitment to the fair and equal treatment of all groups in society." A score of 4 means that you think that the group is not towards one end or the other, and of course you may choose any number in between that comes closest to where you think people in the group stand.

REMARKS:

Hand Card FC was a graphical depiction of 14 houses surrounding "your house." Respondents were asked to fill in letters in each house to represent a most desirable racial-ethnic mix. In the sheet given to respondents, houses were empty and an A, B, H, or W was to go into the middle of each house. Here, numbers have been placed in the houses to clarify which variable pertains to which house. House #1 is NEIETH2, etc.

766. IF ATTENDED HIGH SCHOOL (Q.15), ASK IN TERMS OF "HIGH SCHOOL." IF LEFT SCHOOL BEFORE HIGH SCHOOL, ASK IN TERMS OF "THE LAST SCHOOL YOU ATTENDED."

- A. Was the high school/last school you attended all white, mostly white, about half white and half other races, mostly other races, or all other races?

829. Many people think it is important to have complete freedom of the press and news media in the United States. Others think that the press too often invades the privacy of public figures—like Senators or members of Congress by printing stories that contain personal details about their private lives. Which of the three statements on this card comes closest to your feelings about balancing freedom of the press and the right to privacy? READ STATEMENTS 1-3 ONLY. CIRCLE ONLY ONE CODE.

842. Next, I'm going to read you some descriptions of health problems people sometimes experience. Some people might go to a doctor, others might not.

A. The first description is:

Not being able to do moderate activities, such as moving a table, pushing a vacuum cleaner, bowling or playing golf?

How likely would you be to seek medical treatment—that is, see a doctor, a nurse or other health professional—for this situation? Would you definitely go probably go, probably not go, or definitely not go?

REMARKS: Vignette wording:

Imagine you've been experiencing headaches. You visit your doctor and talk to him about your symptoms. You also tell the doctor that you've been feeling a lot of stress lately. After doing a complete examination, the doctor decides that the headaches are probably due to stress. The doctor wants to work with you over the next month to reduce your stress.

You want to have an MRI to make sure everything is OK. An MRI is a special and expensive type of x-ray that allows doctors to take detailed pictures of parts of the body such as the heart, spinal cord, or head.

Remember that after your complete examination the doctor thinks you don't need the MRI. Then imagine that you have the following conversation with the doctor about the MRI and financial incentives. In this dialogue, the patient speaks first.

VIGNETTE 1 - CODE 1

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: Our physician's group does have financial incentives to keep costs down by avoiding tests when they are not necessary. However, no single decision about an MRI affects my salary. In my opinion an MRI is not needed in your case.

VIGNETTE 2 - CODE 2

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: It used to be that physicians were able to provide tests for patients just to set their minds at rest. Unfortunately, your health plan won't allow me to do it for that reason. Even though I'd like to order it for you, your plan is not going to pay for it.

VIGNETTE 3 - CODE 3

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I can understand that you're worried about whether everything is OK. It also sounds like you're worried that I'm not ordering the test because it's too expensive. These days with Managed Care lots of people share your worries about this. I want to set your mind at rest because I truly do not think that the test is needed at this point.

VIGNETTE 4 - CODE 4

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I understand that you'd like an MRI to make sure that everything is OK. But based on your symptoms, I really don't think you need one. I'd like to treat you for a month or so and then talk again about whether we need an MRI. Would that be acceptable to you?

VIGNETTE 5 - CODE 5

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I've had a lot of experience taking care of patients with problems like yours. The problem you're having is really quite common. You should follow the treatment I've outlined, and then I can reevaluate the situation again in a month.

VIGNETTE 6 - CODE 6

PAT: I'd feel better if I had an MRI. I'm worried that you won't order it because it's too expensive.

DOC: I usually don't order an MRI under circumstances like yours. There's no outside pressure that has made any difference in how I treat patients with headaches. You may set your mind at rest that I'm doing this because this is how I practice medicine.

852. This section is about physicians telling patients about how health insurance and managed care policies affect health care. First, I will ask you about your health care. Later, you will hear a recorded conversation between a doctor and patient and I'll ask some questions about the conversation.

Do you have a regular doctor or clinic?
